Subject: LEAVE WINDOWS ALONE

Separating Windows would complicate computer use greatly. Also, it would increase the chances of incompatibility.

I teach computers to high school students in Florida. Windows is a wonderful for student use. Separating it would create major learning blocks.

Also, we have limited dollars to spend for our budget. Compatibility is vital. Separation would create serious budgetary concerns for technology in Florida high schools.

Please show common sense. Leave Windows working as it is.

Thank you,

Joyce Cheze
Computer Teacher
